

all-wood interior; seven berths; safe, speedy, high-seas sailing

Few 33-footers offer such a satisfying combination of lively performance, well-planned comfort and excellent value as the W33.

There are seven comfortable berths (including double berths fitted as standard in the saloon and forward cabin).

The two-berth aft cabin is self-contained, with its own access from the cockpit.

Full-sized Admiralty charts can be stored beneath the chart table. Cooking for seven is entirely practical in the large fully-fitted galley. A hot, pressurised shower is available as an optional extra, and a four cylinder 42hp diesel is fitted as standard.

The amount of room on board always surprises those meeting the W33 for the first time. Standing headroom in the main cabin, abundant cupboards, hanging lockers for wet and dry clothes, cavernous sail-lockers and the room around the table in the main cabin

and in the cockpit (enough for the whole crew) all come as pleasant discoveries.

On deck, the freedom from clutter makes a crew's job easy, and the special finish provides a really effective non-slip working surface.

The W33 has won ready acceptance among family sailors looking for real comfort combined with exciting offshore and cross-channel sailing.

If you would like to see the W33 being built, or to take one out for a test sail, we shall be happy to arrange it.

Brochures on the whole range, from 21ft to 36ft cruisers and our four racing models are freely available. Just ring Waterlooville or one of the Regional Offices. And if you know a Westerly owner, why not talk to him on his boat?

Every Westerly comes with a Lloyds Register Certificate and is backed by our full after-sales service.
