

**WESTERLY**

# Ocean 49

*A yacht with a style of your own*

*"The Ocean 49 is surely the closest you can get to achieving a custom built yacht at a production price"*

*Ed Dubois*

The largest and fastest yacht in the Westerly range, the Ocean 49 is the ultimate Westerly, giving you the opportunity to fulfil your dreams of personal sailing style in a yacht that can, quite simply, cruise the world.

# 49

Ed Dubois' legendary skill with hull and rig provides the power and seaworthiness, and 30 years of Westerly boatbuilding experience, allied to your own ideas on sailing options and a choice of four interior layouts finished to your personal specifications, will help create the last word in customised blue water yachts

Naturally, the standard of finish throughout is typical of Westerly's traditional values of craftsmanship and luxury, with an attention to detail that provides invaluable reassurance in terms of personal comfort and safety.

The Ocean 49 offers a variety of systems and sailing options to enable you to create the boat that perfectly suits your demands. As you would expect with a boat of this quality, teak side-decks, all furling sails and massive self-tailing winches are standard, and the sailing systems offer remarkable extra flexibility, including the choice of a sloop or cutter rig, in mast furling or a fully battened mainsail.

## Ocean 49 - Key Features

### Hull

Hand laminated GRP with double white isophthalic gelcoat and trim line in your choice of colour. A teak rubbing strake gives a traditional feel while providing practical protection against damage.

### Keel

A computer designed cast iron keel fixed with massive stainless steel bolts concentrates the weight where it is needed, providing a stiff yet easily driven boat.

### Transom

A bathing platform and fold down boarding ladder with wooden treads make swimming easy and are essential safety features.

### Cockpit

The deep centre cockpit gives an excellent command position. The mainsheet is safely out of the way, behind the helmsman, and the powerful self tailing winches are all at hand. A cockpit locker complements the aft lazarette lockers and huge sail bin forward. Seats, cockpit grating and cockpit table are all finished in teak.

### Deck

As with all larger Westerlys, teak side-decks in individual 10mm swept laid planks reflect the build quality, and an abundance of handrails and wide

uncluttered decks allow safe movement about the boat. Features such as a self launching anchor roller keeps you ready for action, while an electric windlass takes away the effort. Side gates in the double guard rails make boarding easy.

### Sails

With the choice of in mast furling or fully battened mainsail, as well as a roller furling headsail, you can choose between convenience or that little extra performance, and for long distance sailing the optional cutter package may be preferred. All lines are led aft to the safety of the cockpit and options such as cruising chute or spinnaker require no extra deck hardware.

### Electrical System

Four low maintenance batteries provide ample power through a changeover isolator for engine starting and domestic needs. A comprehensive switch panel is protected by circuit breakers. There is also a 240 volt ring main protected by residual current breakers for the convenience of AC power while the built in battery charger tops up your batteries and the immersion heater warms the water. The Ocean 49 even has a colour TV, Video, and entertainment centre as standard.

### Engine

The large walk in engine room gives

easy access to the 78hp diesel. Well lit and fully sound deadened, there is space for an optional diesel generator or water maker or even air conditioning. Both fuel and water capacities are designed for serious living board.

### Water System

Pressurised hot and cold water are standard at the galley and in both heads compartments. Each en-suite heads compartment has its own pump out shower including a huge separate shower stall aft. The galley has an additional sea water pump.

### Interior

All woodwork is in a choice of oak or teak and there is a wide range of complementary soft furnishings. The deckhead panels are easily removable for access to wiring and services and the floorboards are made of a special teak and holly striped laminate that needs no maintenance.

### Accommodation

In the owner's version, the forward guest cabin features a domestic size double berth, dressing table and generous stowage. A wing cabin with two excellent sea berths for passage also makes an ideal cabin for children or guests. These cabins share the forward heads and shower. The spacious saloon has wrap around

seating with an adjustable table. The owners suite aft is huge with a walk-around centre-line double bed surrounded by extensive stowage plus a dressing table. Other versions provide more sleeping accommodation.

### Navigation Area

A large forward facing chart table has a swivelling seat, deep stowage for charts, space for extra electronics and stowage for books. A VHF radio even comes as standard.

### Galley

A gimballed luxury cooker with grill and oven is surrounded by a superb marble effect worktop with double sinks. When on shore-supply the standard microwave cooker comes into its own. The huge refrigerated icebox can be spilt into a fridge/freezer at extra cost.

### General Equipment

As you would expect from a Westerly the standard equipment package includes items such as anchor and chain, warps, fenders, radar reflector, electric and manual bilge pumps, emergency tiller, fire extinguishers, gaz bottle, opening stern rail, ensign socket, harness points in the cockpit, signal halyards, sailcover and a comprehensive owner's manual. Your yacht is even delivered antifouled and ready for launching straight off the lorry.

An optional forward arrangement, illustrated to the right, may be specified for either of the above layouts.

### Specifications

Length overall	48'7"	14.80 m
Length waterline	42'2"	12.85 m
Beam	15'1"	4.60 m
Draft	7'1"	2.15 m
Mast height (above waterline)	65'4"	19.90 m
Displacement	28,940 lb	13,125 kg
Ballast	11,680 lb	5,300 kg
Engine	78 hp diesel	

### Sail areas

Mainsail	506 sq ft	47.00 m <sup>2</sup>
Furling Genoa	665 sq ft	61.80 m <sup>2</sup>
Furling Staysail	204 sq ft	19.00 m <sup>2</sup>

The choice does not end with the rig. The Ocean 49 offers a range of four layouts below decks which will allow you to further exercise your options. Whether you plan channel hopping or serious ocean crossings with the ultimate aim of idle island cruising, you can be certain that the needs of your guests and crew will be more than adequately catered for.

Whatever interior layout you choose, you will have spacious well ventilated and lit cabins and a large saloon, with a galley that would be welcomed by the most critical gourmet chef. A star feature in two of the four versions is the remarkable aft cabin with walk-around centreline bed, extensive stowage and private heads with large, separate shower stall.

### Construction

The Ocean 49 is constructed with meticulous care at every stage of the building process. Experienced technicians pay special attention to the construction, ensuring inherent structural integrity. Unlike some other manufacturers who opt for lightweight cored decks, we use a special Fiset mat for a tough all-polyester deck construction which allows extra fittings to be added quickly, simply and safely at any time without any additional strengthening.

### Quality

Westerly's Production Director oversees every aspect of design and construction, ensuring that every facet of each boat meets the company's own stringent standards, besides meeting all the highest internationally recognised quality standards including ISO 9001 and EN 29001.

### Support

As a Westerly owner you will also benefit from the continuing support and advice of the yard and its world-wide network of dealers. From insurance to maintenance and repairs and the supply of spare parts or accessories, you are guaranteed all the help you might need for as long as you sail a Westerly. There is also a very active Westerly Owners' Association which offers a range of events, services and discounts to its many thousands of members.

### Your Westerly

We will be pleased to help if you need any further information to decide which Westerly is best for your own particular requirements. Please let us know if you would like any advice on financing or trade-in values - if you have a Westerly to trade in, you will be aware that they hold their value well.

The standard inventory of some models may change. Please refer to the current specification sheet. Pictures within this brochure may show a boat fitted with optional extras.

Call us for more information, or to arrange a test sail.
