

A new generation

Already they're on on demo at Hamble,

Over the last decade, Westerly has established a solid position as the Country's leading builder of family cruising yachts.

The boats which have won such widespread loyalty are all, of course, still available.

But for the next decade, a new breed of Westerly boats is on the way.

The first examples are on our Stand at the Boat Show, and on demo at Hamble now.

Look for larger, better planned cockpits; for Kemp masts and Lewmar winches; for Volvo diesels and transom-hung rudders.

Look for Edward Dubois designs, with amazing directional stability and surprising turns of speed.

Look for wider, more spacious interiors, generous headroom, full size bunks, well designed galleys, teak strip floors, solid mahogany fittings, detachable roof liners, separate heads and a wealth of storage for sails and gear.

Every boat in the range (except J24 & J30) is delivered with a Lloyds Register Certificate — water-tight guarantee of sound construction.

Every boat offers a unique balance of steadiness, sea worthiness, comfort and sheer sailing fun, a combination of qualities typified by the three new Westerlys we show here.

GRIFFON W26 SLOOP

LOA 26.0ft (7.93m)
LWL 21.6ft (6.59m)
BEAM 9.24ft (2.82m)
DRAFT (Fin keel) 4.75ft (1.45m)

NEW WESTERLY GRIFFON

Designed by Edward Dubois, famous designer of many successful ocean racers, the 26ft Griffon is a genuine thoroughbred.

Responsive, stable and tremendous fun to sail, she takes a devotee of everyone who steps on board. Her exceptional sailing characteristics, together with features such as the transom-hung rudders, well-planned cockpit, spacious five-berth accommodation and genuine offshore cruising capability make the Griffon, we believe, the best-planned, best designed 26 footer afloat.

KONSORT W29 SLOOP

LOA 28ft 10ins (8.80m)
LWL 25ft 6ins (7.77m)
BEAM 10ft 9ins (3.29m)
DRAFT (Twin keel) 3ft 2½ins (.98m)
DRAFT (Fin keel) 5ft 4ins (1.62m)
WEIGHT 7900lbs (3583kg)
ENGINE 23hp Diesel
Options:
Twin, Fin or lifting keel.

NEW WESTERLY DISCUS W33

This new Westerly features a bridge/sun deck for those members of the crew not actually sailing the boat, and also an aft cabin with below decks access from the main cabin.

Seven berths in three cabins; a good size galley and chart table; standing headroom in the main cabin, and attractively spacious, airy interior are the main characteristics of this new model.

The aft cockpit design of Discus contributes to her outstanding manoeuvrability and speed.

The interior is in natural wood teak strip flooring. Pressure hot water system and shower is standard.

NEW WESTERLY 29FT KONSORT

Designed by Laurent Giles & Partners, the new Konsort offers a stimulating blend of exciting performance, generous accommodation and responsive, well-balanced handling.

Konsort is available with fin, twin or lifting keel. There are six berths, a practical chart table, well-fitted galley, standing headroom and excellent stowage throughout the all wood interior. A hot shower can, as an optional extra, be fitted in the separate heads.

On deck the layout is designed for ease and simplicity with slab reefing and halyards led aft to the deep, comfortable, well thought-out cockpit.

Konsort comes with a 23hp inboard engine, and its own special style of powerful adventurous sailing.

Just turn up and we'll take you out!

The entire Westerly range from 21ft to 36ft is permanently berthed at Hamble Point Marina, where test-sails are available seven days a week, at any state of the tide. We would welcome a phone call before you come, but it's not essential. Tel: Hamble (042122) 5233.
