

*You'll find very few yachts that will outclass this remarkable new Regatta 310 from Westerly. For this is a boat that will reward her crew with outstanding performance and a responsive feel that's both predictable and stable. Her deck and cockpit layouts are extremely well thought out, not just for the demands of racing, but for cruising shorthanded too, so every fitting, from the solid teak coachroof grab rails to the stainless steel guardrails and stanchions, is of the very highest quality and strength.*

*The mid-range Regatta, the 310 has a tremendous feeling of space and comfort, further enhanced by the low seat backs in the saloon, with their unique, individual headrests. These open out the view to the ship's sides, and high lockers above run the full length of the saloon, so plenty of secure storage is still a feature of this attractive area.*

*The well equipped and spacious galley area, opposite the navigation station, is a good example of just how successfully we have been able to blend the practical needs of the racing scene with the more leisurely and stylish cruising lifestyle.*
