

regatta

It's the excuse you've to buy yourself a new

 Call it a *reason* if it makes you feel better, but don't miss the opportunity to get aboard the most exciting range of performance sailboats we've ever launched.

Even by Westerly standards (and we're renowned for the high quality and solid value our boats have always represented) the **Regatta** range is a remarkable achievement.

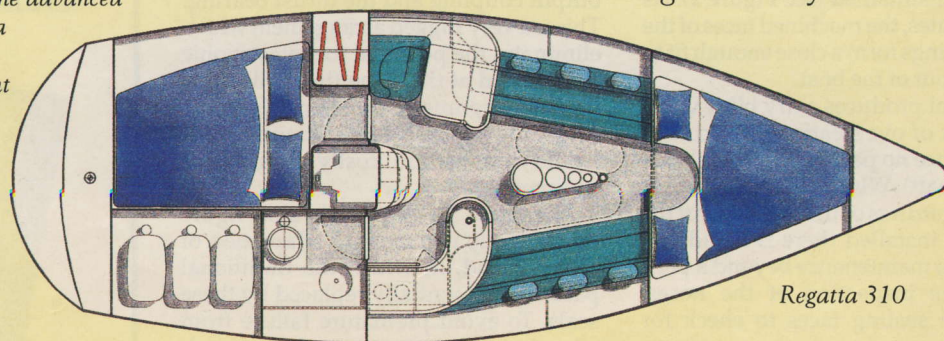

For the first time, all the traditional virtues of our fast, seakindly hulls and well-proven deck and rig designs have been combined with a radically new, fresh and very un-Westerly approach to interior style, layout and comfort that will probably have some of our more conservative customers turning enviously in their bunks!

Regatta 330

Come and see the real thing!

International design consultant Ken Freivokh has worked with us to create the advanced styling for the new Regatta range and these computer simulations give just a hint of the sophistication and spacious layouts to be found aboard.

**GONE
SAILING!**

been waiting for Westerly.

Sufficient reason, we hope you may say, to send for brochure, or to call us for a private viewing ; but if you're looking for a *real* excuse, simply ask for the **Regatta** price list. You'll then discover, to your surprise and delight, that these boats aren't just competitive on the water. They're outright winners on value!

*To celebrate the launch, we've commissioned a stylish memento – an attractive enamelled lapel badge with the colourful **Regatta** insignia. We'll send one on request*, if you call or write for **Regatta** details or make an appointment for a test sail.*

*While stocks last

A new cruising yacht too!

If you're committed to the larger cruising yacht, even the attention the **Regatta** range is attracting shouldn't deflect you from visiting us. On the contrary, there's every reason (or excuse) to take your time looking over the brand new centre-cockpit **Oceanquest 35**, or the aft-cockpit **Oceanranger 38** and **Oceanlord 41**, with their elegant teak decks, effortless furling systems and self-tailing winches, and superbly comfortable accommodation. All of which, as you might expect from such an experienced builder of world-class cruising yachts, are standard. Once again, just call us for details.
