The Oceanmaster 48 exemplifies the ocean-going models of the Westerly fleet, providing fast, safe and satisfying passage making.

Centre cockpit, retrousse stern and teak laid decks are standard features of most of the Ocean range, together with in-mast furling and roller-reefing headsail. Below decks, selected woods have been expertly crafted throughout, providing a calm and comfortable haven, the envy of many continental and even Scandinavian yachts.

Westerly yachts are built under strict Lloyds Register supervision and individually accorded a Lloyds Hull Construction Certificate, with the extra assurance confirmed by BS 5750 (ISO 9001).

Westerly's well established aft cabin yachts are enjoying continuing popularity, with significant design and detail improvements.

With the brand new Spirit 25 bringing the experience of Westerly sailing to a new generation of yachtsmen, at a very affordable price.

*Write, phone or fax today for full details of the 1992 Westerly range.*
